SUBJECT :

Headlamp  
Switch

Effective on CH vehicles with build date code CC21 and later and VH vehicles with build date code CH01 and later, a lighting switch assembly has been introduced with an increased capacity internal circuit breaker to protect the headlamp circuit.

The new switch can be identified by a larger diameter instrument lamp rheostat and the body is moulded in black in lieu of the brown of the earlier switch.

This increased capacity lighting switch will be available from Spare Parts outlets as follows.
